

# MENTONE GOLF CLUB

## PAR INSTRUCTIONS

Using the stroke index form the score card, firstly allocate your handicap to determine holes scored.

If a player exceeds their par score, write down strokes and a + for the hole.

If a player is equal to their par score, they are said to halved or squared the hole - write down strokes and a 0 for the hole.

If par score is not achieved a - is recorded.

Final score is calculated by deducting the number of - from the number of +.

Stroke score must be shown on the score card for holes where a + or 0 is scored.

A player should pick up their ball once they are beaten by their par score.
