

MENTONE GOLF CLUB

FOURSOMES INSTRUCTIONS - STROKE

Played by 2 players - a partnership using ONE ball.

The Team's handicap is determined by adding both players handicaps together and halving e.g. 36 + 33 = 69 giving the partnership a handicap of 34.5.

Scoring is the same as for individual Stroke.

Both players individual handicaps must be shown on the score card. Players decide which player hits off on which tee.

One player hits off ODD numbered tees and the other player hits off EVEN numbered tees.

Once a player tees off the ball is then struck ALTERNATELY until the ball is holed

If there is a penalty shot to be taken, the penalty shot is NOT used as an alternate shot. e.g. Player A has hit the team's second shot into an unplayable position, the team elects to take a two club lengths penalty drop. Player B then hits the ball taking the team's number of shots for that hole to 4.
